Seven Mills

A new town alive with opportunity

Discover Seven Mills

Cairn is pleased to introduce Seven Mills, a vibrant new town, located on the Grand Canal in Dublin 22.

Convenient, comfortable and community centered, Seven Mills will be a modern and inclusive town that people can call home. Here sustainable, contemporary, and stylish homes are surrounded by comprehensive amenities including parks, schools, canalside walks, accessible transport, shops and restaurants.

Seven Mills forms a major component of the Clonburris Development Zone (SDZ) Planning Scheme, recognised by the Irish Government as an area of strategic national importance. South Dublin County Council, along with the landowners have collaborated to develop a tailored plan to deliver 8,700 new homes, 8 new schools and 10 crèches in this area. Cairn, as the majority landowner, has designed Seven Mills to become the centrepiece to this new town.

Seven Mills Key Stats

Delivering a new town centre

Cyclepath directly to Dublin city centre

2 community buildings

+25,000

native Irish trees planted on site

12 parks

each home is a 2 mins walk from a park

225 acres of green space

3.5 km of canal frontage

12.5 km of walkways and cycleways

3 crèches

2 train stations

+15,000 residents

On your doorstep

vibrant shops, cafés, offices and community spaces

More than a house - a community to call home.

Cairn recognises that developing a new town is not just about building homes, it's about creating communities.

With €30 million forward funding from Cairn, as well as €186 million from the Urban Regeneration Development Fund and €18.8 million from the National Transport Authority, comprehensive infrastructure will be included in every step of Seven Mills' construction.

New roads, transport infrastructure including DART+ South West, parks, community centres and utility networks, are just some of the public facilities that will be delivered alongside 8,700 new homes in the Clonburris SDZ, of which Cairn will build 5,500 over the coming years.

CORKAGH PARK

Life on your terms

A world of opportunity on your doorstep. Seven Mills is designed to give you access to work, rest and play all within 5-minutes of your front door.

Designed to provide the perfect work life balance, Seven Mills will offer its 15,000 new residents easy access to places to shop, work, eat and relax. Commercial and retail spaces will give people and businesses the opportunity to find work and success close to home.

3.5km of canal frontage, and an extensive network of 12.5km of walkways and cycleways offer natural outdoor spaces for people to relax and unwind.

LIFFEY VALLEY

CLONDALKIN

A new town, well connected

Accessible by rail, road, cycleway and footpaths, Seven Mills boasts 2 train stations, GoCar and Bike Share services. Ideally situated between the vibrant towns of Clondalkin and Lucan, this prime Dublin location delivers the best of both worlds, offering the rich history and cultural heritage of Clondalkin with the contemporary charm and amenities of Lucan.

Good for business

Seven Mills presents a thriving new town with a projected population of over 15,000 people, providing many opportunities for businesses to flourish and expand.

With a keen focus on fostering a vibrant business ecosystem, Seven Mills is designed to support businesses of all sizes, from small retailers and start-ups to established employers.

Delivering a new town centre

Building the future, building for good

The successful delivery of large-scale developments such as Citywest, Parkside, and Shackleton showcases Cairn's capability, credibility, and capacity in meeting the housing demands of Ireland.

As Ireland's leading home and community builder, Cairn's track record showcases expertise in innovation and construction, with over 7,000 new homes built in the past 8 years, including 3 neighbourhoods of over 1,000 homes each.

Cairn prioritises sustainability and energy efficiency as well as enhancing biodiversity, across all our developments.

Cairn is dedicated to delivering high-quality, sustainable homes and collaborating with homebuyers to consistently improve designs to ensure satisfaction.
